

Aegean Summer: A Family Odyssey

Early one summer when Mimi Summerskill inherited \$30,000 from her grandfather, she chartered a marvelous old 81 wooden racing schooner, took her 5 children, ages 10 to 22, and sailed the islands of Greece for 3 months. It was a decision that changed her life and the lives of her children forever. In *Aegean Summer* she tells the story of this family adventure, describing in intimate detail the excitement of this odyssey of hundreds of miles. With a Greek crew of 5 (who spoke no English), they traveled from island to island, visiting villages, finding ruins, dropping in at taverns, feasting, making friends, cycling, swimming. Aboard the *Eva Maria*, cramped but happy, they studied the history of Greece, its culture, mythology, politics; they read more than 100 books which stimulated endless discussions. It became, says the author, a kind of floating university. On one small island in the middle of the Aegean, Mimi fell in love with some land edging the sea and bought it. Afterwards she built a stone house there to which she and some of her family go a part of each year. *Aegean Summer* is above all about a woman daring to take her children on an extraordinary adventure, and about a loving family becoming even closer because of it.
