In each guide there is a minimum of 100 miles of trail described. Their compact size (4.5 x 6) makes them easy to carry. Each book has at least 96 pages of information, an index, and photographs. If youre going backpacking, each guide covers the amount of area youre likely to venture through on a backpacking trip. Or if youre camping in a particular area, the High Sierra Hiking Guides will give you lots of options for dayhikes. Save money-you dont need to buy any other maps because each hiking guide comes with an updated, accurate topographic map.
