

Anton Bruckner: A Documentary Biography : From Ansfelden to Vienna (Studies in the History and Interpretation of Music, 83a)

This study provides a fuller account of Bruckner's early and middle years than has hitherto been available, and supplements the more accessible information about his years in Vienna by drawing on a rich source of material in contemporary reviews of performances of his works, comparisons between him and Brahms, and the well-documented accounts of hostility between the conservative pro-Brahms faction (represented by Hanslick, Halbeck and others) and the progressive pro-Wagner and pro-Bruckner faction (represented by the Schalk brothers, Ferdinand Lowe and Hugo Wolf).
